

AKASH YADAV

Houston, TX $\diamond$ ayadav4@uh.edu $\diamond$ [akashyadav0210.github.io](https://github.com/akashyadav0210) $\diamond$ [Google Scholar](#)

RESEARCH INTERESTS

AI4Science, Scientific Foundation Models, Uncertainty Quantification, Probabilistic Machine Learning, Reduced-order Modeling, and Computational Mechanics

EDUCATION

Doctor of Philosophy, Civil Engineering (GPA: 4.0/4.0) 08/2023 - 05/2027 (expected)
Thesis: Quantify and Reduce Model-error in Physics-based and Learned Models via Stochastic Representations
University of Houston (UH) - Houston, USA

Master of Technology (Research), Civil Engineering (GPA: 8.3/10) 10/2020 - 06/2023
Thesis: SHM Accounting for Thermal Variability and Damage Using Approximate Bayesian Computation
Indian Institute of Science (IISc) - Bangalore, India

Bachelor of Technology, Civil Engineering (GPA: 8.75/10) 07/2014 - 05/2018
Indian Institute of Technology (IIT) - Roorkee, India

SKILLS

ML/UQ	Transformers, LoRA, PINNs, CNNs, GANs, Gaussian Processes, BO, MCMC
Programming	Python, PyTorch, GPyTorch, BoTorch, NumPy, SciPy, MATLAB, Julia
HPC/CAE	Distributed training, SLURM, Git, Abaqus, LS-DYNA, FEniCS, Gmsh

RESEARCH EXPERIENCE

Graduate Research Assistant - UH (Advisor: Dr. Ruda Zhang) 08/2023 - Present

- **Uncertainty-aware foundation models:** Developed inference-time stochastic attention that equips pretrained or fine-tuned scientific foundation models (SciFMs) with calibrated uncertainty without re-training, validated on weather, time-series, and PDE SciFMs while preserving predictive accuracy.
- **Stochastic subspaces for model error:** Randomized the projection subspace of reduced-order models via probabilistic PCA and the Bootstrap, yielding statistically consistent 95% prediction intervals up to $45\times$ tighter than the state of the art at one to four orders of magnitude lower offline cost.
- **Bayesian optimization under uncertainty:** Built a workflow to tune hyperparameters in stochastic models, reducing data requirements and accelerating tuning by $40\times$ relative to Monte Carlo-based optimization and $15\times$ relative to conventional Gaussian-process Bayesian optimization.
- **Model error correction:** Developed a stochastic reduced-order model (SROM) framework whose low-dimensional correction terms absorb systematic discrepancy in computational mechanics, improving predictive uncertainty under limited data.

Graduate Research Assistant - IISc (Advisor: Dr. Ananth Ramaswamy) 10/2020 - 06/2023

- Developed a method based on Approximate Bayesian Computation (ABC) for damage detection under varying temperature conditions, and extended it to incorporate damage-induced nonlinearity.

PROJECTS

IC-SHM 2026: Structural Damage Diagnosis from Images and Text

06/2026 - 09/2026

- Led a three-member team (UH, IISc) that fine-tuned a vision-language model (Qwen3-VL-8B) to classify and describe structural damage, raising micro-F1 from 0.49 to 0.96.
- Applied inference-time stochastic attention to the vision-language model, where it gave the largest gain in description quality among the methods compared.

2. **Yadav, A.** & Zhang, R. “Stochastic Reduced-order Modeling for Model Error Characterization and Correction.” *USNCCM 2025*, Chicago, USA.
3. **Yadav, A.** & Zhang, R. “Stochastic Subspace via Bootstrap for Model-form Uncertainty.” *CASML 2024*, IISc Bangalore, India.
4. **Yadav, A.** & Zhang, R. “Stochastic Subspace via Probabilistic Principal Component Analysis for Model-form Uncertainty.” *WCCM/PANACM 2024*, Vancouver, Canada.
5. **Yadav, A.** & Ramaswamy, A. “Structural Health Monitoring of Steel Truss Bridges Subjected to Environmental Variability.” *ICCMS 2022*, IIT Indore, India. Published as a [Springer book chapter](#).

HONORS AND AWARDS

Chevron Energy Graduate Fellows Award , UH	08/2026 - 05/2027
Jimmie A. Schindewolf Academic Scholarship , UH	08/2024, 2026
Student Travel Award for WCCM/ECCOMAS 2026	03/2026
Future Faculty Program , UH	08/2024 - 05/2025
Presidential Fellowship , UH	08/2023 - 05/2025
Finalist, USACM UQ Student Paper Competition , WCCM/PANACM 2024	07/2024
Cullen Fellowship Travel Grant , UH	05/2024
Top 0.35% in IIT-JEE (out of 1.4 million candidates)	06/2014

TEACHING EXPERIENCE

Teaching Assistant , Foundation Engineering (CIVE 4369), UH	01/2026 - 05/2026
Recitation Instructor , Mechanics-I Statics (ENGR 2301), UH	08/2024 - 12/2024
Teaching Assistant , Mechanics-I Statics (ENGR 2301), UH	08/2023 - 12/2023

INDUSTRY EXPERIENCE

Senior Project Engineer - Indian Oil Corporation Limited	07/2018 - 09/2020
Oversaw civil execution for an energy-efficient green building and process-unit expansion; coordinated contractors, ensured code compliance, and managed schedules across multiple work fronts.	

RELEVANT COURSEWORK

Mathematics for AI, Deep Learning, Learning with Data, Data-Driven Engineering, Bayesian Statistics, Optimization Methods, Numerical Methods.

EXTRACURRICULAR ACTIVITIES

Secretary/Joint Secretary , Taekwondo, Institute Sports Council, IIT Roorkee	2016 - 2018
First Dan Black Belt in Taekwondo by World Taekwondo Federation	08/2017
Represented State Uttarakhand in National Taekwondo Championship	12/2017
Organizer and Instructor , Self Defense Camp, Unnat Bharat Abhiyaan	03/2017

ACADEMIC AND PROFESSIONAL AFFILIATIONS

United States Association for Computational Mechanics (USACM), Graduate Student Member, Technical Thrust Area in Uncertainty Quantification and Probabilistic Modeling.
Society for Industrial and Applied Mathematics (SIAM), Graduate Student Member.
